## BRIEF STATEMENT

It is our privilege to be able to share with you what it is that makes Presentation Thurles such a unique place of learning. The many generations that have passed through the portals of the school have had to face the challenges of their day and equipped with the knowledge and skills acquired here, they have learned to overcome them.

Presentation Secondary School Thurles aims, with the resources available, to provide the best possible environment in order to cater for the cultural, educational, moral, physical, religious, social, linguistic and spiritual values and traditions of all students.

## Transition Year

The Transition Year Programme promotes the personal, social, vocational and educational development of students and prepares them for their role as autonomous, participative and responsible members of society, a unique one year programme for students who have completed the Junior Certificate. It provides a bridge to enable them to make the transition from the more dependent type of learning associated with the Junior Certificate to the more independent learning environment associated with the senior cycle.

It encourages personal and social development and recognises the need for students to grow in independence. Transition Year fosters academic achievement as students prepare for a Leaving Certificate programme, further study and adult and working life. It encourages the development of a wide range of transferable critical thinking and creative problem-solving skills.
