BRIEF STATEMENT

Since 1943 we have educated confident, thoughtful and caring students in the familial atmosphere of St. Mary's College. We continue to make a difference through education, just as Catherine McCauley sought to make a difference in founding the Sisters of Mercy.

We provide successful learning in a caring school community. St. Mary's College is committed to student success. Students are offered a wide curriculum and are taught by a professional and dedicated staff. We offer a range of extra-curricular and sporting activities, confident in the knowledge that our students are enabled to develop their talents and abilities. We enjoy a strong relationship with the community of Ballysadare. St. Mary's College is also close to Sligo town.

As a school, we offer students individual attention and we respond quickly to their changing needs and circumstances.

I hope you enjoy visiting our website. You are welcome to contact our school if you would like to know more.
